

### PRODUCT DATA SHEET

The **BH0-ES Batten Holder** is a simple and versatile **E27 Edison Screw lampholder** designed for surface-mounted lighting installations in homes, offices, and commercial spaces. It provides a secure, easy-access base for standard **E27 screw-in bulbs**, supporting a wide range of lamp types from traditional incandescent to LED. Rated for domestic and light commercial use, the BH0-ES is ideal for ceiling or wall mount applications where reliable and compliant lighting hardware is needed.

### KEY FEATURES

- **Standard E27 Edison Screw Base** – Accepts a wide variety of E27 lamps including LED, CFL and incandescent types.
- **White Finish** – Neutral colour blends seamlessly with most interiors and décor.
- **250 V AC, 4 A Rated** – Suitable for general lighting circuits up to 4 A load.
- **PBT Construction** – Durable polybutylene terephthalate body provides good heat resistance and insulation.
- **Easy Surface Mounting** – Ideal for batten-style ceiling or wall installation.
- **Safety Standard Approved** – Meets Australian and New Zealand electrical safety standards for lampholder fittings.
