Motion detection and tracking camera with a wide, high definition viewing angle. See what's happening at your home remotely.

Full high definition resolution 1080P (FHD) camera.

Remotely operate the camera up, down, left and right with 355° horizontal and 85° vertical view.

Advanced motion detection identifies slight changes in movement and sends a notification to your phone/tablet.

Sound detection to activate camera giving an extra level of security.

Infra-red night vision detection.

Tracking cameras are designed to follow the detected movement and guide the camera in the same direction. Allows camera footage to stay with the moving object/person and improve recording range.

Two-Way audio. Allows you to speak and listen through the BrilliantSmart app no matter of your location provided you have an internet connection.

Manually record live video direct to your phone through the BrilliantSmart app.

Built in memory 16GB SD. Older footage is overwritten. Access recordings from anywhere with your smartphone.

IP65 Weather-resistant.

Compatible with BrilliantSmart devices via automation & IFTTT.

APPLICATIONS

- Smart security for every home
- Create in app automation, so lights illuminate based on behaviours, ie: when movement is detected via a sensor, the lights turn on automatically.
