

56EV2 Series

Safety comes first

Clipsal's new 56EV2 Back Boxes can have sockets fitted horizontally or vertically, allowing the plug to run flush with the wall. This prevents the hazard of plugs protruding out from walls in high traffic areas.

All Clipsal Back Boxes are moulded in UV stabilised rigid PVC to facilitate gluing of fittings for conduit entry. Ample conduit and cable entries are provided and there is plenty of wiring room for easy installation.

56EV2 Series

Safety comes first
