HPM

HPM 65W AC Exhaust Fan Time Delay Module

REF. EFTD65WAC | EAN. 9321001526391

1 Year Warranty

> [Visit product online](#)

Features

- Set the exhaust fan module to run for an additional 1 to 30 minutes after switching off, ensuring thorough ventilation and eliminating residual odours and moisture
- Features an easily adjustable knob, accessible once the fascia is removed, allowing for quick and simple adjustments to the time delay settings
- Compact, lightweight, and built to last, ensuring reliable performance over time

User Recommendations

- Ideal for use in bathrooms, kitchens, and laundries, this module is perfect for any space where moisture and odour control are essential
- Compatible with all HPM ventilation fans under 65W featuring an AC motor, including both Exhaust Fans and Bathroom 3-in-1 Heaters

Overview

This innovative device is designed to keep your home free from steam, odours, and excess moisture even after you've switched off your exhaust fan. By allowing the fan to run for a set period after being turned off, it ensures that your bathroom, kitchen, or laundry remains fresh and dry, preventing mould and mildew build-up.

Quality You Can Trust

Installation

- 200mm wire length offers ample flexibility during installation, allowing for easy connection to your existing exhaust fan setup without the need for additional wiring extensions

Convenient Functionality

- By automatically extending your exhaust fan's operation, this module keeps your living spaces comfortable and odour-free without manual intervention.
